

Using Ubooquity

Ubooquity is a way to serve up digital ebooks. If you are interested in accessing Ubooquity I will need to manually make you an account. Generally I will use your name for the username, and you will want to reset the password from whatever I set it too.

OPDS Feed

Many eReaders/eBook apps have support for directly connecting to Ubooquity through an OPDS feed. The exact setup of this will vary depending on the app, but the OPDS feed for my server can be found at:
