

Using Petio to make Requests

You can request new content for Plex on [Petio](#). Logging in with Plex is easy assuming you have already [made a Plex account](#).

Requests

There is a limit to how many requests you can make, frankly this is just because people were requesting like 20 seasons of Reality TV/Cartoons with no intent to actually watch it lol. If there are extenuating circumstances, you can message me and plead your case.

Issues

If you notice there is an issue with something on Plex **please** log an issue here. You can tell me/text me about something, but I will probably forget. I always work my way through the logged issues.
